Discover the Power of Smart Lighting

Caséta by LUTRON

Control your lights, shades and temperature from anywhere – whether you’re home or away. Caséta Wireless dimmers and switches install in minutes, work with numerous bulb types – including dimmable LEDs and CFLs, and bring the convenience of a connected home to your fingertips.

A smarter timer - your customers will always come back to a well-lit home

- Set timer once and never have to reset it again
- Timer schedules automatically adjust when seasons change
- No reprogramming for daylight saving or power outages

A hassle-free 3-way

- Add 3-way or multi-location control without needing to wire another switch
- Easily add additional points of control at any time
- Mount remote on any surface for an additional point of control, without cutting holes
- Get in and out of a job fast

Leff Electric is committed to sustainability. This mailer is printed on recycled paper.
