

INDUSTRIAL HANDHELD LABEL TOOL WITH RECHARGEABLE LI-ION BATTERY

- **Comes as a kit at the price of just an industrial labeling system**
Standalone label printing system includes carrying case, PT-E300 with display, keyboard & cutter, rechargeable battery, AC adapter & tape
- **Smart label application keys**
Simple menus for common applications with smart technology, help reduce key strokes and time to print the right looking label
- **QWERTY keyboard**
Entering data is as natural & intuitive as texting or sending a message
- **Compatible with Flexible ID tape & heat shrink tubing**
More options to mark cables, fiber and wire
- **Faster print speed**
Prints up to 0.78ips which is 2x faster than many previous Brother models
- **Optimized character font shaping & accurate print positioning**
Prints high quality text and barcodes
- **Large back-lit LCD display with application icons**
Provides at-a-glance information to confidently know you are printing the right type of label
- **Uses HGe, TZe and HSe tape**
All in one, drop in cartridge design helps ensure you get the best print quality and makes replacing media virtually trouble free
- **Prints polyester (PET) laminated labels**
Extremely durable labels that can withstand abrasion, fading, extreme temperatures, chemicals, moisture and other harsh conditions
- **2 Year "At your side" limited exchange warranty**
- **Rechargeable Li-ion Battery (BA-E001) or 6 AA Alkaline Batteries**
