Energy Saving Strategies Seminar

LUTRON®

May 25, 2011 (8:00 - 11:00 a.m.)
Continental breakfast will be served.
No cost for seminar.

Leff Electric Conference Room
4700 Spring Road
Cleveland, OH 44131

Space is limited. RSVP by May 18 to Angela Svadba:
asvadba@leffelectric.com or 216.325.1599.

Learn how to combine the control of daylight and electric light to save energy and increase sales opportunities, reduce labor and material costs, and provide added value to your facilities.

Learn how Lutron Energy Products:

- Help eliminate 60% or more in electric lighting costs in commercial applications
- Reduce maintenance expenses
- Increase productivity and flexibility in any space

Each attendee will receive a sample package **(a $695 value!)** that includes:

- (1) Simple energy retrofit package - includes Maestro Wireless dual voltage switch, wireless occupancy/vacancy sensor, Claro 1-gang wallplate
- (1) Maestro Wireless 120/277 V switch
- (1) wireless wall-mount occupancy/vacancy sensor
- (1) wireless daylight sensor
- (1) 2-button Pico wireless control
- (1) Maestro 120/277 V switch with sensor
