CENTIUM® with IntelliVolt™

for F40T8, F32T8, F25T8, and F17T8 Lamps

Instant Start Low Profile Ballasts for T8 Lamps

Product Profile

Advance introduces a complete family of low Profile, T8 Centium® ballasts incorporating IntelliVolt™ technology. IntelliVolt™ permits inventory and SKU reduction throughout the supply chain, since the same ballast can operate on any system voltage from 120V to 277V, 50/60Hz.

The IntelliVolt™ ballasts are featured in our industry standard Small Can package. These low profile, lightweight units are ideal for the new generation of low profile fixtures. The ballasts have the same wiring configuration and mounting dimensions as standard size ballasts, and are therefore ideally suited for retrofits into existing fixtures.
