

You Can Get a Multitude of Custom Built, UL Listed, NEMA Motor Starters on the Spot, Just by Contacting Leff Electric

300-Line Fastrac Now Full Voltage Stock Starter

Fastrac Now™ brings all the advantages of 300-Line NEMA starters and the GE Fastrac™ Program. Even better, it brings them to you Right Now.

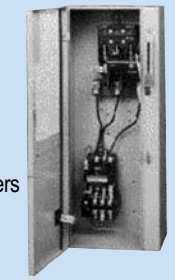

As an authorized Fastrac Now Distributor, Leff can assemble the custom built starters you need, in minutes. GE Industrial Systems has created a family of flexible modules that can be used to build many sizes and types of starters, with no need for point-to-point wiring or knowledge of control schematics.

Features and Benefits

- Tool-less contactor disassembly for quick inspection and maintenance of the contacts
- Simple voltage coil change-out allows for maximum configurability
- UL and CSA ratings for Field Assembly
- Field modifiable to change control configuration after initial purchase

Product Scope

- Stocking NEMA sizes 0-2
- Combination starters
- NEMA type 1
- Fused disconnects
- Standard bimetal overloads
- Pilot devices (and/or Pilot lights)
- Control power transformers (480/240V Primary - 120V Secondary; 208V Primary - 120V Secondary)

Come to Blossom Music Center to...

'Light Up' this Holiday Season with the Inaugural 'Lighting Festival'

Presented by Marc's Begins November 16th, Runs through January 6

Blossom Music Center will open its grounds to the public this winter for the first time when the Blossom Holiday Lighting Festival presented by Marc's kicks off November 16th. The sprawling light display will spread across Blossom's grounds in a drivable 2-mile exhibition. Visitors can enjoy the show for just $12.50 per carload. Discount coupons good for $2.50 off the admission price will be available November 1st at Marc's stores, Holland Oil locations and other participating area retailers. Groups in shuttle busses or limousines can see the Festival for $25.00 each; busses for $55.00 each. Selected charities will receive a portion of Festival proceeds.

Hours: Sunday - Thursday: 6pm - 9pm • Friday & Saturday: 6pm - 11pm

Arlington IN-and-OUT™ Cover

Low profile when not in use - Weatherproof while in use.

Arlington's IN-and-OUT™ Cover gives you the versatility of a low profile cover when not in use and a deeper cover when a cord's plugged in!

In the IN position the cord holes at the bottom of the box are sealed to keep bugs out. It extends quickly and easily into the OUT position to accommodate a plug, then back to low profile.

It fits over all boxes or openings in new or retrofit projects - and comes with a one-piece base plate/gasket combination in two sizes. One fits over a regular size outlet box. The other, larger size fits oversized openings or a 4" round outlet box. Available in paintable white or clear, vertical style.

Our new IN-and-OUT™ cover is your best, competitively priced choice for great looks, convenience and a UL Listed weatherproof while in use installation.

Arlington Any BODY™ Aluminum Conduit Body

It's Any Body You Want It To Be!

Just switch the covers and threaded flanges as needed to create the style you need; T, LL, LR or C.

IT'S EASY AND CONVENIENT!

Plus, it saves you the hassle, space and cost of stocking five different conduit bodies.

- ***Sizes: 1/2" to 4"***
- ***Includes threaded flanges for three openings***
- ***1/2" to 2" sizes are combination EMT/rigid - they're threaded for rigid, but also have a set-screw for use with EMT***
- ***Competitively priced with LBs - there's NO EXTRA COST for the normally more expensive T***
- ***UL and CSA Listed***

It's all *anybody* needs to save time & money!
