Correction on August Flyer

Mark O'Brien ***Tim Sayre***

Our apologies to Tim Sayre and Mark O'Brien. Their names were under the wrong pictures on the August mailer. Here are the names appearing under the correct pictures.

Leff Welcomes Bruce Fox

Leff welcomes Bruce Fox to the Leff Electric team as the Customer Service Supervisor - National Accounts. Bruce is responsible for managing the national accounts employees and all of the day-to-day functions. Bruce comes to us from Hughes Supply, where he was a purchasing agent for the Central Region water & sewer group. Prior to that, Bruce worked for RexelSacks for 26 years in various positions including Outside Sales, Credit, and Director of Purchasing. Bruce lives in Hinckley with his wife, Linda and two adult children, Jennifer and Rob.

Avis McKissack
Celebrates 5 Years with Leff Electric

Avis McKissack
Warehouse Driver,
Union Steward

Avis started at Leff 5 years ago as a Warehouse Driver. He is also the Union Steward. Avis is the Minister of the Gospel at Power of Faith International. He lives in Cleveland Heights with his wife, Carla and children; Regis, Carla, LaBron, and Andressa. He enjoys watching football and basketball in his spare time.

Jim McCormick
Celebrates 10 Years with Leff

Jim McCormick started working at Leff Warren Electric as an Inside Salesperson in September 1995. He lives in Niles with his wife, Pam and enjoys traveling, home repair, and spending time with his grandchildren in his spare time.

From September 1 - November 30, 2005.

ADVANCE

Earn up to $250 in Ballast Hold 'Em Winnings

based on the accumulated total of all distributor invoices reflecting purchases of any Advance ballasts over the three-month participation as follows:

Ballast Purchases	Ballast Hold 'Em WINNINGS
$1,000-$1,499	$25
$1,500-$2,499	$50
$2,500-$4,999	$100
$5,000+	$250

American Express Award Card Claim Forms, along with a copy of the invoice(s), must be submitted to Advance directly. Winnings will be issued in the form of American Express award cards directly from Advance. Purchases must be made between September 1 and November 30, 2005. See your salesperson or stop in at any Leff counter order forms and details.

Advance Optanium 2.0

High Efficiency IntelliVolt® Instant Start Ballasts for High Efficiency T8 Lamps

More than a high efficiency ballast,

Optanium 2.0 enables the most advanced T8 Lighting Systems, realizing the potential energy savings of all T8 lamps, wherever they're used. High-efficiency Instant Start Optanium 2.0 ballasts are available to meet specific needs in two versions - a standard light output design (0.87 Ballast Factor) and a low-watt design (0.77 Ballast Factor). The ballast also meets the new NEMA/CEE high performance T8 lighting system specifications.

Features:
- *Hi-Efficiency*
- *Instant-Start Lamp Ignition*
- *UL Type CC Rated – Meets UL criteria for arching protection*
- *IntelliVolt® Technology (108-305V, 50/60Hz)*
- *Low-profile, Lightweight Housing*
- *Independent Lamp Operation (ILO)*
- *-20°F Starting Capability**
- *Auto-restrike Capability*
- *Operates Standard – F32T8, F25T8, F17T8, F40T8 and F32T8/ES energy saving lamps*

- *Limit: two per customer, while supplies last.*

CADDY® Speed Link Light Duty

ERICO introduces **CADDY® SPEED LINK LD** - a universal support system that quickly suspends static loads, even at an angle. It is a cost-effective alternative to jack chain, threaded rod and associated hardware in lighting and other installation projects.

Features:
- *The 1.5 mm (0.059 inch) wire rope with a crimped-on hook holds working loads of up to 20 kg (44 lbs) with a 5:1 safety factor.*
- *A small, aesthetically pleasing locking device completes the assembly; this low-profile stainless-steel device ensures stability and allows for additional vertical adjustment after wire insertion. A small screwdriver releases the lock for fast installation adjustments.*
- *The wire rope/hook assembly is available in galvanized steel as well as stainless steel for applications where a higher level of corrosion resistance is required.*
- *The system installs without drilling or tools and allow objects to be hung at an angle-e.g., from sloped ceilings.*
- *CADDY SPEED LINK LD is available in 2m (6.6 ft), 5m (16.4ft) and 10m (32.8ft) lengths.*
- *It works with a variety of CADDY® Fasteners including beam clamps and purlin clips or can be looped directly around the beam.*
- *A convenient plastic sleeve keeps the wire rope looped up until the contractor is ready to install.*
- *An optional extension tool allows CADDY SPEED LINK LD to be installed from the ground.*

Applications
- *Lighting support*
- *Speakers*
- *Sensors*
- *Signage for overhead building structural members*

COLEMANCABLE Push-Lock™ Cable Cordsets

Coleman Cable introduces the Push-Lock line of extension cords. The Push-Lock cords feature a patented locking technology. When connected to a tool or other electrical device, they provide a positive lock and can be disengaged only by choice.

Features & Benefits:
- *Easy-to-use patented Push-Lock mechanism*
- *Suitable for indoor or outdoor use*
- *Weather and water resistant*
- *Cord remains flexible to -40°C*
- *Lighted connector shows the power is ON*
- *Reinforced blades for added durability*
- *Ideal for use with power tools*
- *Designed to work with most cords*
- *UL and CUL listed*
